

Do you know an outstanding mid-career woman making an impact in clean energy?

Nominate her for a C3E Award

The U.S. Clean Energy Education and Empowerment (C3E) Awards recognize rising women working to advance clean, renewable sources of energy, related technologies, or clean energy policy. Each winner will receive \$8,000 and national recognition. Winners of the 7th Annual C3E Awards will be announced at the C3E Women in Clean Energy Symposium in 2018.

C3E Awards for mid-career leadership and achievement are given in 8 categories:

- Advocacy
- Business
- Education
- Entrepreneurship
- Government
- International
- Law & Finance
- Research

Eligible nominees are mid-career women working in the clean energy sector and are U.S. citizens or permanent residents.

Accepting nominations

March 7, 2018 – April 4, 2018
at www.C3Eawards.org

The U.S. Department of Energy, Massachusetts Institute of Technology Energy Initiative, the Stanford Precourt Institute for Energy, and the Texas A&M Energy Institute collaborate to implement the U.S. C3E program.

Get inspired!

C3E Award winners are an impressive group of women making a difference. Recognizing leadership and achievement promotes career advancement and inspires women of all ages to contribute to the clean energy field.
